

SPOOLBOX

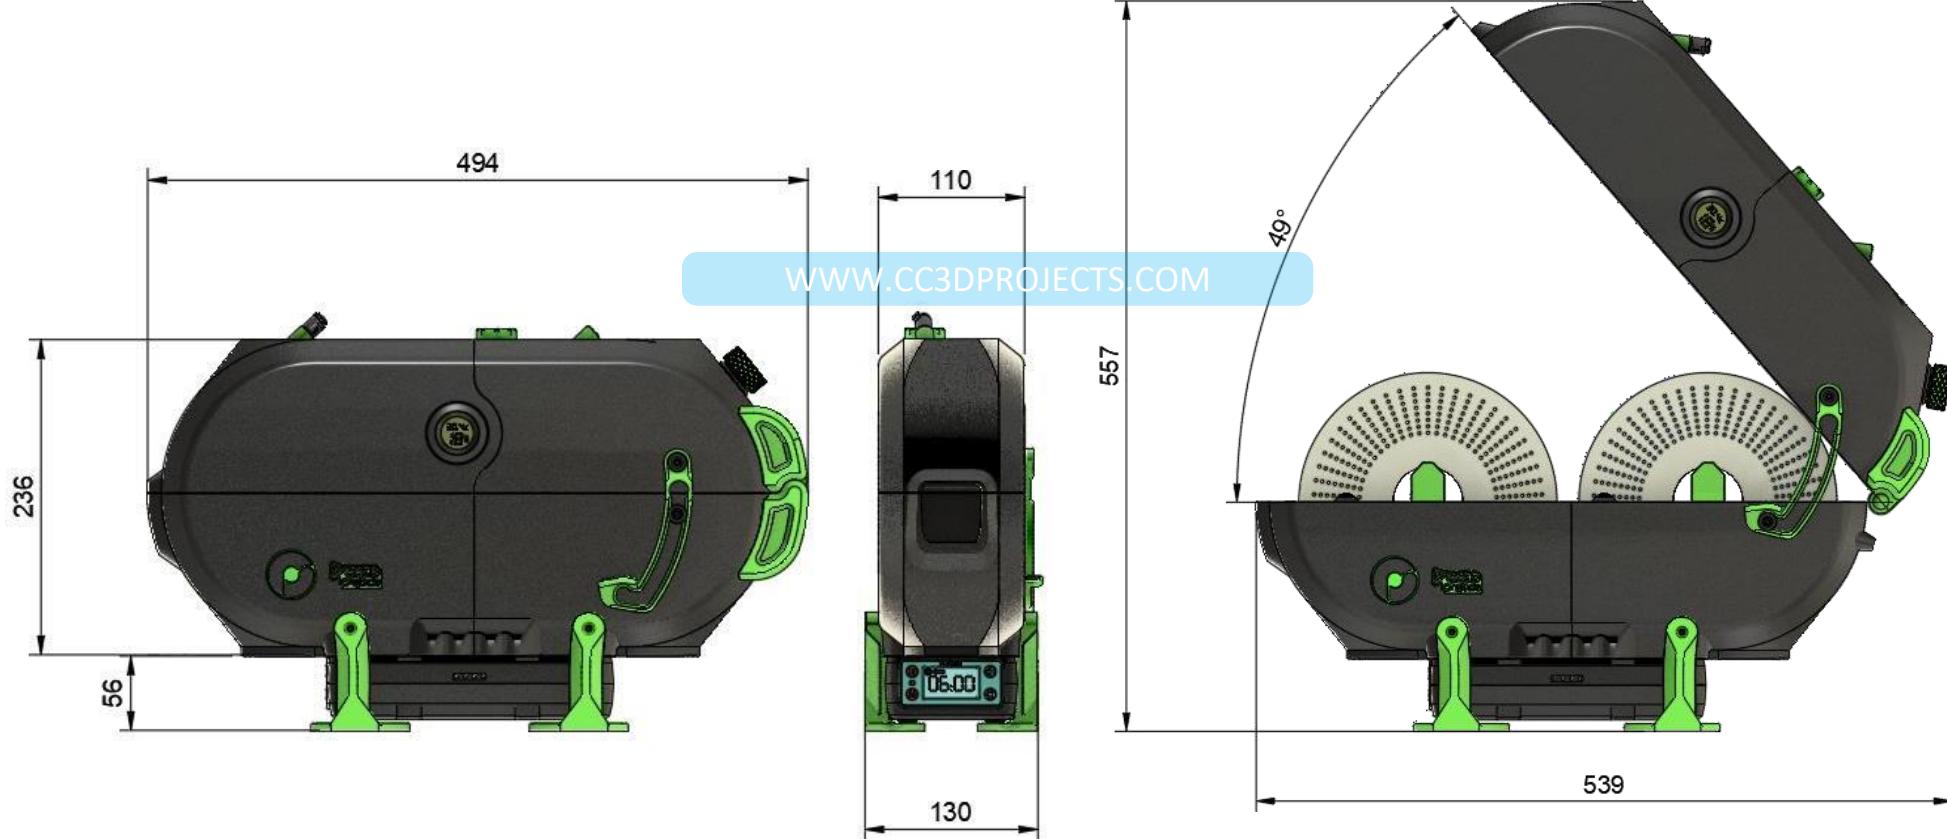

SPOOLBOX with PolyDryer

SPOOLBOX WITH POLYDRYER CONNECTED TO KEEP YOUR FILAMENTS DRY AND ALWAYS READY TO PERFORM AT THEIR BEST. THE MODEL OFFERS:

- MULTIPLE CONFIGURATIONS: STANDALONE, COMPATIBLE WITH ANY 3D PRINTER OR MOUNTABLE ON ANY DRAWER YOU OWN YOU'LL HAVE.
- A HUMIDITY AND TEMPERATURE SENSOR.
- THE OPTION TO INSTALL INTERNAL LED LIGHTS SPACE TO HOLD UP TO 2 SPOOLS.

MAIN DIFFERENCE

SPOOLBOX

THIS GUIDE WILL SHOW YOU HOW TO ASSEMBLE THE MODEL. WE'LL TAKE THE MORE COMPLEX STAND-ALONE VERSION AS OUR EXAMPLE.

THE MAIN DIFFERENCES FROM THE DRAWER VERSION ARE THE SHAPE OF THE BASE FEET AND THE PRESENCE (OR NOT) OF TWO GROOVES THAT LET YOU ATTACH THE SPOOL BOX TO THE DRAWER. AS MENTIONED EARLIER, THE BOTTOM PART OF THE SPOOL CAN HAVE GROOVES ON THE LEFT SIDE — OR NONE AT ALL.

WHAT PRINT FILE I USED FOR THIS ASSEMBLY MANUAL?

SPOOLBOX

STAND-ALONE VERSION

	Spool Box - Stand Alone - Left - Front Sensor - LED.3mf 12.43 MB		
	Spool Box - Stand Alone - Left - Front Sensor - NO LED.3mf 11.49 MB		
	Spool Box - Stand Alone - Left - Side Sensor - LED.3mf 12.38 MB		
	Spool Box - Stand Alone - Left - Side Sensor - NO LED.3mf 11.40 MB		
	Spool Box - Stand Alone - Right - Front Sensor - LED.3mf 12.45 MB		
	Spool Box - Stand Alone - Right - Front Sensor - NO LED.3mf 11.51 MB		
	Spool Box - Stand Alone - Right - Side Sensor - NO LED.3mf 11.44 MB		
	Spool Box - Stand Alone - Right - Side Sensor - LED.3mf 12.38 MB		

DRAWER VERSION

	Spool Box - Drawer - Front Sensor - LED.3mf 13.11 MB		
	Spool Box - Drawer - Front Sensor - NO LED.3mf 12.17 MB		
	Spool Box - Drawer - Side Sensor - LED.3mf 13.03 MB		
	Spool Box - Drawer - Side Sensor - NO LED.3mf 12.10 MB		

EACH INDIVIDUAL PRINT FILE CONTAINS ALL THE PARTS NEEDED TO MAKE A COMPLETE VERSION OF THE SPOOLBOX.

REQUIRED SPARE PARTS:

SCREW M4 14 mm

18 units

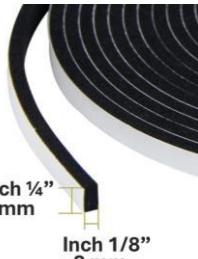

MAGNET 8X2 mm

8 units

HUMIDITY Sensor

1 units

Adhesive GASKET

SPOOLBOX

IN THIS CASE, WE'RE TALKING ABOUT THE "TOP" VERSION. I'M GOING WITH THE ONE THAT HAS A HUMIDITY SENSOR ON THE FRONT AND THE OPTION TO ADD AN LED STRIP INSIDE.

LOWER SHELL

SPOOLBOX

TAKE THE TWO BASE PIECES FOR THE STAND-ALONE VERSION, LINE THEM UP, AND SECURE THEM WITH SCREWS IN THE HOLES MARKED IN RED.

NEXT, INSTALL THE MAGNETS IN THE YELLOW HOLES USING THE MAGNET INSTALLER A (YOU CAN GET ONE FOR FREE IN THE SHOP) AND A DROP OF GLUE.

WWW.CC3DPROJECTS.COM

A TIP FROM MY OWN EXPERIENCE: INSTALL THE SCREWS AND MAGNETS FIRST, THEN MASK THE OUTSIDE AND SPRAY THE INSIDE WITH CLEAR ACRYLIC PAINT. THIS CREATES A NICE SEALING FILM THAT MAKES THE SPOOL BOX AIRTIGHT.

PLEASE DO THIS IN A WELL-VENTILATED AREA AND ALWAYS WEAR A MASK, SAFETY GLASSES, AND GLOVES. SAFETY FIRST!

UPPER SHELL

SPOOLBOX

LET'S MOVE ON TO THE UPPER PART OF THE SPOOL BOX.

FIRST, WE NEED TO INSTALL THE WINDOWS.

I USED A SIMPLE 0.6 MM TRANSPARENT POLYCARBONATE , FLEXIBLE SHEET (YEP, I "borrowed" IT FROM A PHOTO FRAME). I CUT IT WITH A CRAFT KNIFE USING THE PROVIDED TEMPLATES, GLUED IT WITH SUPERGLUE, AND SEALED THE EDGES 😊 WITH RUBBER GLUE FOR FULL INSULATION.

A TIP FROM MY OWN EXPERIENCE: BEFORE INSTALLING THE GLASSES, MASK THE OUTSIDE AND SPRAY THE INSIDE WITH CLEAR ACRYLIC PAINT. THIS CREATES A NICE SEALING FILM THAT MAKES THE SPOOL BOX AIRTIGHT.

PLEASE DO THIS IN A WELL-VENTILATED AREA AND ALWAYS WEAR A MASK, SAFETY GLASSES, AND GLOVES. SAFETY FIRST!

UPPER SHELL

SPOOLBOX

TAKE THE TWO UPPER PARTS, LINE THEM UP, AND FASTEN THEM WITH SCREWS IN THE RED HOLES.
THEN INSTALL THE MAGNETS IN THE YELLOW HOLES USING MAGNET INSTALLER B (ALSO FREE IN THE SHOP) AND A DROP OF GLUE.

UPPER SHELL

SPOOLBOX

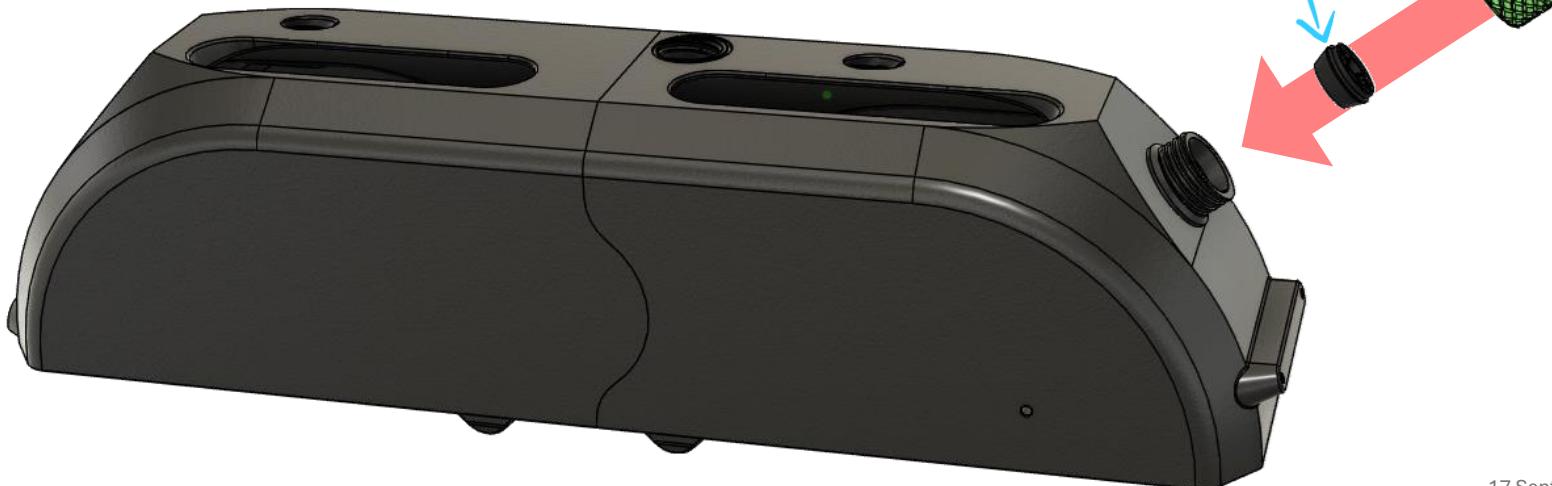

NEXT, LET'S MOUNT THE CABLE PASS-THROUGH FOR THE LED STRIP.

GLUE THE THREADED PART TO THE TOP SURFACE — IT HAS A LITTLE NOTCH THAT HELPS YOU CENTER IT PERFECTLY. ADD SOME SUPERGLUE, INSERT THE SEAL, AND SCREW ON THE CAP.

NOTE: THE SEAL HAS AN OPEN SIDE THAT WILL HELP YOU PASS THE CABLE THROUGH LATER.

SCREW IN THE STEAM VALVE RIGHT INTO THE THREADED HOLE IN THE CENTER.

PUSH THE FILAMENT GUIDES INTO THEIR HOLES UNTIL YOU HEAR A "CLACK." IF YOU WANT, YOU CAN SCREW IN THE M10 FITTINGS TO ADD A PTFE TUBE AND MAKE FILAMENT FEEDING EASIER.

M4 SCREW

WHEN YOU OPEN THE SPOOL BOX, YOU'LL HEAR A "CLICK" FROM THE STOPPER — THAT MEANS THE LID IS LOCKED FULLY OPEN. TO CLOSE IT, JUST PULL UP THE LITTLE HANDLE ON THE STOPPER, RELEASE IT, AND SHUT THE BOX.

MAIN BODY

SPOOLBOX

IF YOU HAVE PRINTED AND ASSEMBLED THE DRAWER VERSION, NOW YOU NEED TO INSTALL THE RAILS ON THE DRAWER OF YOUR ELEGOO CENTAURY CARBON, OR GLUE THE RAILS ONTO ANY DRAWER YOU ALREADY HAVE. MAKE SURE TO CENTER EVERYTHING BEFORE GLUING – CHECK IT 10 TIMES SO, YOU'RE SURE.

M4 SCREW

Tube Connector
